

Events Descriptions

This page provides descriptions for our parties and events. For more information, visit our website [HERE](#) or give us a call at (914) 218-8175.

Robot Battle Party (EVRB)

Ages 6 to 14

Recommended Course Duration: 1.5 to 4 hours

Invite Computer Adventures and we will show up with all of our LEGO® Mindstorms NXT robot pals! During the party, you and your friends will program and customize your robots to battle head-to-head on our Sumo Battle board. CAUTION: Robot battles can be exciting and inspiring. Be prepared for an extraordinary amount of screaming and laughter!

For children 6 & 7 years old, 90-minute party is recommended.

For children younger than 5 years old, an adult or a teenage assistant is needed for each child.

LEGO Movie Making Party (EVBF)

Ages 7 to 14

Recommended Course Duration: 2 to 4 hours

Lights...Camera...Action! This party/event will have the kids' LEGO® characters come to life. Using stop-motion animation and digital editing, students produce LEGO® brickfilms much like the ones viewed on YouTube. At the end of the party, we will have a "Movie Premiere" showing off all the movies that the children made. The host will get an Internet link to download kids' movies.

CAUTION: The next young "Steven Spielberg" or "George Lucas" may be in our midst!

For children younger than 7 years old, an adult or a teenage assistant is recommended for each child.

Minecraft Adventures Party ** (EVMC)

Ages 8 to 14

Recommended Course Duration: 1.5 to 3 hours

You and your friends will work together to create a Minecraft Adventure Map! Our instructor will guide you with a story theme, and the map creation process. When the map is done, you will play with your Minecraft creation. We will provide a server, router, projector, and every child with a laptop, which is connected through our local network without access to the Internet. It's safe, fun, and exciting!
